Islamabad, Pakistan | shoaibhassan7271@gmail.com | +923069802415

Profile

Dynamic Full Stack Engineer with 6 years of extensive experience in both frontend and backend development, specializing in React.js and Node.js. Proven ability to craft intuitive user interfaces and develop robust applications that enhance user experience. Demonstrates a strong commitment to collaboration, driving technological advancements and contributing to large-scale projects. Equipped with a deep knowledge of modern frameworks and cloud services, focused on delivering high-quality solutions in fast-paced environments. Eager to embrace new challenges and push the boundaries of innovation in software development.

Professional Experience

Full Stack Engineer, CyberVision International, Islamabad

September 2019 — June 2020

- Developed and maintained web applications using React.js and Node.js, ensuring high performance and responsiveness.
- Integrated RESTful APIs and GraphQL to optimize data retrieval and management.
- Collaborated with cross-functional teams to define and implement new features.
- Utilized cloud services like AWS for deployment and scalability.
- Enhanced application security and performance through code reviews and testing.

Senior Frontend Developer, Zeki Expert Solutions, Remote, Islamabad

February 2020 — January 2022

- Designed and implemented responsive user interfaces using React.js and Next.js, enhancing user engagement and satisfaction.
- Developed backend services with Node.js to support application functionalities, ensuring seamless integration with frontend components.
- Collaborated with cross-functional teams to optimize application performance and resolve technical issues in a timely manner.
- Integrated cloud services, including AWS and Hasura, to enhance application capabilities and scalability.
- Mentored junior developers, fostering a culture of learning and knowledge sharing within the team.

Full Stack Javascript Developer, KidsHub, Remote, Islamabad

February 2022 — Present

- Developed and maintained scalable web applications using React.js and Node.js, enhancing performance and user engagement.
- Collaborated with cross-functional teams to define and implement software features that improved user satisfaction.
- Optimized application architecture for better efficiency and responsiveness, utilizing AWS and GraphQL.
- Integrated cloud services and databases like PostgreSQL and MongoDB, ensuring seamless data management.
- Mentored junior developers, fostering a culture of knowledge sharing and continuous improvement.

Education

Bachelor Of Computer Science

2015 — 2019

During my Bachelor's in Computer Science at Government College University, Faisalabad, I established a robust foundation in critical areas such as software development, algorithms, and data structures. My academic tenure was marked by the successful completion of various hands-on projects and research initiatives, which refined my problem-solving abilities and technical acumen. Actively engaging in [relevant clubs or activities], I undertook [mention any leadership roles or contributions], further enhancing my leadership and collaborative skills. This educational experience has thoroughly prepared me for a dynamic and impactful career in the technology sector.

Technical Skills

Javascript: React, Node, Next.js, Express.js, Shadcn UI, Ant Design, Material UI

CSS: Tailwind CSS, Bootstrap

DevOPS: AWS EC2, AWS Amplify, AWS Cognito, AWS Scheduler, AWS Lambda
